

**DESCRIPTION**

A high quality, compact block designed for electric utility use. Offered in a selection of styles, and with fittings most popular with linemen.

Constructed with forged steel fittings, aluminum alloy frames, fiber-plastic sheaves that are practically unbreakable, and large axles with high-quality bearings. A choice of self-lubricating bronze bearings, or ball bearings is offered.

Single with  
No. 3 Hook  
and Becket

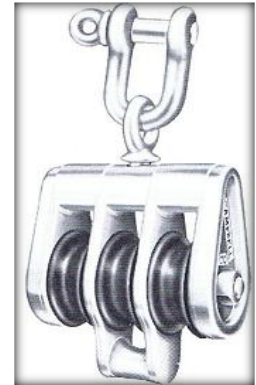

Double with  
No.5 Hook  
Less Becket

Double with  
No.5 Hook  
and Becket
